Tepromark Architectural Products – Osseo, MN – Administration & Operations Specialist

(2012 – 2014)

Tepromark Architectural Products was a 2012 ground-up relaunch under new ownership of a brand of wall protection systems for healthcare facilities based on the liquidated assets of another company.

- Established initial configuration and provided ongoing support and training for all small office systems (Windows Laptops, Ringcentral Phone, Insightly CRM, Google Apps email and cloud file sharing, MS Office, Unleashed orders & inventory, Xero accounting & bookkeeping, Square and Stripe credit card processing)
- Processed and produced customer purchase orders, supplier sales orders, Bills of Lading, acknowledgements & tracking details, account statements, payments & receipts
- Full post-sale order and process ownership, tracking available inventory, expected and booked orders, incoming stock and drop-shipments of components to ensure timely and accurate delivery to the building site
- Constructed custom skids, packed, strapped and wrapped, aluminum and plastic components for domestic and international shipping
- Received, inspected and stored newly received product components
- Customer service & problem solving, website and social media design, promotion & maintenance, approval of catalog and other print media
- Supervised US Trademark applications for Tepromark name and logo
- Retained catalog resale clients during product line and product nomenclature changes through extensive inside sales support
- Packed retained inventory, racks and equipment for transport from Skokie, IL and set up racks and cut-to-length work areas in the new ~1500 sq ft warehouse space in Osceola, WI
- Implemented systems and processes for tracking and organizing legacy inventory and new production in real time

New Zealand – Travel Employment

(2009)

- Euromonitor International – Christchurch, NZ
- Hopewell Lodge – Kenepuru Sound, Marlborough, NZ
- Arcadia Orchards – Havelock North, Hawke's Bay, NZ

Euromonitor International – Chicago, IL – Research Analyst – Canada (2004 – 2008)

Euromonitor International is the world's leading independent provider of strategic market research.

- Researched sales and competitive information on ~20,000 consumer goods products across ~2000 categories in the Canadian marketplace from primary and secondary sources including company annual reports, trade press, government statistics and interviews, producing or supervising production of 15-20 national industry reports per year
- Developed and managed a dynamic team of 3–5 remote (in-country) analysts across Canada which required continuous recruiting, training, and support
- Wrote, reviewed & edited reports including researched data and analytic context in adherence with company house style and standards of data reliability
- Performed interviews for national Canadian media (including the Globe and Mail and Report on Business Television)
- Prepared and delivered presentations for diverse industry associations (including the Canadian Health Food Association and the Pet Food Association of Canada)
- Synthesized my team's research on Canada with interesting developments from the other 80 countries researched to provide additional insights into future market opportunities
- Provided training to new researchers on usage of our custom SQL based database

YMCA-YWCA of Winnipeg Camp Stephens – Lake of the Woods, Ontario, Canada

Operations Staff, Boat Driver (2003)
